

Final preview

BAIS 6140 – Information Visualization

L. Miguel Encarnaç o

# Final

Information preliminary and subject to slight changes

- Contribution to grade: 20%
- Remote Quiz
  - Your laptop with audio & camera
  - Zoom set up
  - Curved
- Focus on visualization of quantitative information
  - No network or text visualization

# Final Exam

- Online quiz in ICON
  - Open Notes, but no web access
  - Only ICON and Zoom open
  - Recommended to have cheat sheet and a calculator
- Multiple-choice, fill-in, open response, visualization critiques
  - 20 questions in 90 minutes
- Mainly 3 focus areas:
  - WHY: Visual perception & cognition (incl. biases)
    - Review corresponding slides
  - WHAT: Visualization techniques (when to use which)
    - Review [datavizcatalogue.org](http://datavizcatalogue.org)
  - HOW: Best practices
    - Review: Tufte, Few (not book!), Shneiderman
    - Review: Visualization critique posts & comments
- Start: ~6:15 pm, November 9 (Monday)
- End: 90 min. after start
- After exam: Log off at your discretion

# Notes

- No immediate scores on online quiz
  - To avoid panic since system doesn't tolerate ambiguity and typos in answers
- Grading by beginning of following week
